

Sharp Cemetery

The Sharp burial ground lies on the ridge facing the Dave Sharp store and Slaty Fork Post Office, at the point where the old road begins its descent to Slaty Fork Creek. Five generations of the Sharp Family are buried there, along with members of at least nine other families who once lived in the Slaty Fork area. Twenty-six of the graves are marked with engraved stones, three are marked with fieldstones on which names but no dates have been painted, and at least nineteen graves are marked only with plain fieldstones. There are perhaps other graves which will remain unmarked and unidentified forever.
